FOR IMMEDIATE RELEASE

SRNS Donates \$10,000 to Help Grow Barnwell YMCA

AIKEN, S.C. – May 19, 2015 – Savannah River Nuclear Solutions (SRNS) has donated \$10,000 to the Barnwell YMCA to provide potential improvement in their wellness center, group exercise rooms, community meeting area, childcare rooms, administrative offices and outdoor recreation spaces.

This YMCA is a regional resource serving citizens living within the counties of Barnwell and Allendale. Their membership numbers recently exceeded 2,000.

“SRNS knows the important role the YMCA plays in youth development, healthy living and strengthening community,” said Carol Johnson, SRNS President and CEO. “The programs and services offered here will enable people of all ages to realize their potential and offer families an outlet to grow healthier in mind, body and spirit. It’s in the interest of being a good corporate neighbor that SRNS made the donation to help improve this facility, while the Barnwell YMCA organization continues to enhance the services it offers area residents.”

Savannah River Nuclear Solutions is a Fluor-led company whose members are Fluor Federal Services, Newport News Nuclear and Honeywell, responsible for the management and operations of the Department of Energy’s Savannah River Site, including the Savannah River National Laboratory, located near Aiken, South Carolina.
