FOR IMMEDIATE RELEASE

SRNS' Safety Performance Recognized by South Carolina Chamber of Commerce

AIKEN, S.C. April 11, 2016 – The Savannah River Site's management and operations contractor, Savannah River Nuclear Solutions (SRNS), was recently recognized by the South Carolina Chamber of Commerce for exemplary safety performance at a safety awards ceremony in Columbia.

"I am proud of the SRNS team for their daily contributions to make the Savannah River Site a safe and reliable neighbor to the surrounding community as well as all of Georgia and South Carolina," said SRNS President and CEO Carol Johnson. "We are a team that believes that safety is core to who we are."

The company was recognized by the South Carolina Chamber of Commerce for completing 2015 with four lost-time cases in the operations division and zero lost-time injuries in the construction division.

"For a company that conducts the highly technical and hazardous work that we do, the fact that SRNS employees worked nearly 10 million hours in 2015, with four lost time injuries, speaks to the safety culture we hold dear. What's more, SRNS employees feel that four injuries are too many, and they work as a team striving for zero injuries. I am very proud of their commitment and find the safety culture

at SRNS to be world-class and nothing short of inspirational,” said Mary Flora, SRNS Deputy Director for the Environmental Stewardship, Safety and Health division.

Every year, the South Carolina Chamber of Commerce recognizes South Carolina-based companies who have finished the previous year with commendable safety performance. With this most recent award, SRNS has received recognition from the South Carolina Chamber of Commerce every year since SRNS became the Site’s prime contractor in 2008.

Savannah River Nuclear Solutions is a Fluor-led company whose members are Fluor Federal Services, Newport News Nuclear and Honeywell, responsible for the management and operations of the Department of Energy’s Savannah River Site, including the Savannah River National Laboratory, located near Aiken, South Carolina.
