SRNS Teams With Houndslake Country Club to Raise Over \$25,000 During Celebrity Waiter Night

SRNS team surpasses all other participating companies by \$3,000

AIKEN, S.C. (Nov. 11, 2011) – Savannah River Nuclear Solutions, LLC (SRNS) teamed-up with Houndslake Country Club during a celebrity waiter fund-raiser to assist Children's Place, raising more than \$25,000 and, in the process, surpassing all other participating company sponsors by \$3,000.

Celebrity Waiter Night was developed 15 years ago to create an annual event where local companies can partner with many of the best restaurants in the Aiken area to raise funds to assist the at-risk children who attend Children's Place. This year, ten restaurants and their associated company-sponsors raised over \$80,000.

In gratitude for extensive contributions made by Houndslake Country Club, SRNS officials recently presented an engraved silver bowl to the country club's General Manager, Jeff Howell.

"The staff, managers and employee waiters of the participating restaurants deserve our recognition and deepest thanks for assisting with this effort as well," said Clif Webb, SRNS Vice President, Corporate Communications. "It's not widely known, but the participating restaurant's employee waiters donate their time to the celebrity waiters that night."

Celebrity Waiter Night creates an opportunity for volunteer waiters to have fun while serving both restaurant patrons and a worthy cause. Typically, the celebrities are executives from participating company sponsors.

The Savannah River Site is owned by the U.S. Department of Energy and is managed and operated by Savannah River Nuclear Solutions, LLC.

“It’s difficult for us to place a value on the time, dedication and enthusiasm we see each year by everyone who steps up to make this very important fund-raiser a success for the children we serve,” said Peggy Ford, Executive Director, Children’s Place. “Time and again our friends at Savannah River Nuclear Solutions and Houndslake Country Club have come to our aid and even our rescue. We just can’t thank them enough. But we’re happy to present the Club with our high-earning sponsor-restaurant plaque and to award our celebrity waiters with our unique waiters’ caps.”

Children’s Place is a small complex of older buildings in Aiken, S.C., where typically on any given day more than 100 children travel by bus to enjoy a safe and secure haven. A special place where, day-by-day, they can play without fear, work with therapists, and heal after experiencing problems in their young lives.

Savannah River Nuclear Solutions, LLC, is a Fluor-Daniel Partnership comprised of Fluor, Newport News Nuclear and Honeywell, responsible for the management and operations of the Department of Energy’s Savannah River Site, including the Savannah River National Laboratory, located near Aiken, South Carolina.
