**FOR IMMEDIATE RELEASE**

## Internet and Mobile Food Vendors Sought for SRS Employees

AIKEN, S.C. (Feb. 28, 2014) – Savannah River Nuclear Solutions (SRNS) is evaluating the opportunity to utilize Internet ordering and mobile vendors to support Savannah River Site (SRS) Food Service. The purpose of this inquiry is to determine marketplace interest and qualifications for development and operation of “on-line” and mobile food service within the local area of the SRS boundary.

For Internet ordering vendors, the vendor shall provide a web-page where an employee of SRS can place an order for food service. The vendor shall accept credit card payment for the service and provide delivery of the purchased products to designated points at SRS.

Typical service should include advance on-line ordering, up to and including the day of delivery, at a cut-off time determined by mutual agreement between SRNS and the vendor. The SRS customer shall be allowed to complete the purchase on-line. The vendor shall deliver to designated areas per the SRNS provided schedule. Delivery locations will be rotated on a daily basis to provide adequate variety for SRS employees.

For mobile food vendors, the vendor shall provide a mobile food truck where an SRS employee can place a meal request and food will be cooked to order on location. No pre-ordering will be necessary.

Typical service should include cooked to order meals between a beginning and ending time determined by mutual agreement between SRNS and the vendor. The vendor will provide the service to designated areas per the SRNS provided schedule. Like Internet ordering, service locations will be rotated on a daily basis to provide adequate variety for SRS employees.

The vendor shall provide all administrative services, materials as needed, transportation, technical support and equipment for the day-to-day activities commensurate with providing food service to the SRS.

SRNS will provide the necessary documentation, schedules and consultation as required for the food service to be provided. SRNS reserves the right to procure food service utilizing other options and vendors.

This Expression of Interest does not commit SRNS to issue a future solicitation for these services, to award a subcontract, or to pay any costs incurred in the development and submission of any response. Vendors will be required to comply with all applicable policies, procedures and regulations.

Vendors interested in more information regarding this opportunity, should contact Constance Paino, [constance.paino@srs.gov](mailto:constance.paino@srs.gov).

*Savannah River Nuclear Solutions is a Fluor-led company whose members are Fluor Federal Services, Newport News Nuclear and Honeywell, responsible for the management and operations of the Department of Energy's Savannah River Site, including the Savannah River National Laboratory, located near Aiken, South Carolina.*
